NEW SOCIETY.—It is with much satisfaction that we are enabled to state, that a New Society of believers in the Restitution has recently been form in the flourishing village of Ithaca, Tompkins county, N.Y. They have succeeded in engaging the ministerial labors of Br. O. [Orestes] A. Brownson, who has taken up his abode with them, and who has already begun a good work among them, and bids fair to be the honoured instrument of doing much to the glory of God and the happiness of men [sic] in that place. They at present hold their meetings in the Academy, but appearances indicate, that ere long they will erect a house of worship, where truth divine, unadulterated with the wisdom of men, shall be fearlessly proclaimed, and joyfully received by many. May peace, unity, and heaven-born kindness be multiplied among them.
