

DOINGS IN THE NEW WARD  
A Movement to Establish a Universalist Church

There are among the residents of this ward a large number of Universalists, and it has been remarked as rather strange that no movement had ever been made looking toward the establishment of a church of that denomination. Those Universalists who do not attend churches of other denominations are in the habit of going down town to some church of their own faith. However, this condition of affairs will very likely be remedied in the near future. The Rev. E. Fitzgerald, a minister of that faith, has been looking over the ground during the last week and has consulted several resident Universalists. He finds a sentiment favorable to the establishment of a church in the ward and will very likely soon take steps to effect such a purpose. His present address is 52 India street, where he will be pleased to hear from or see any local Universalists.
