

[Hulett, Margaret Jane]

DIED, In Batavia on Saturday, Dec. 10th, Mrs. Margaret Jane Hulett, wife of Oliver Perry Hulett, in the 25th year of her age.

She died of a remitting fever, accompanied at the last with an abscess on the brain, which was ascertained by a post mortem examination. Her friends were apprised of this trying event, as her appearance was such as to give no signs of approaching dissolution; and even but a few minutes before her exit, she was able to converse freely with her friends who came to see her, insomuch that all were encouraged to hope for her speedy recovery. She has left a husband to mourn this providential affliction, with three small children, the youngest of which is but about three months old.

Her funeral was attended on Sunday the 11th, and the consolations of Christianity were presented by the writer from John xiv:16.
